

Shared Planning and Strategic Plans

Strategic Plan Crosswalk to Suicide, Overdose, and ACEs Intersection Domains

Use this tool to gather information about other internal team or department work that may be relevant to the intersection of suicide, overdose, and ACEs.

Before completing this worksheet, ask to review or discuss internal team or department strategic plans or action plans. Fill out one worksheet for each strategic plan or action plan that you review to see how it may connect to work at the intersection.

(Name of Team or Internal Department) Strategic or Action Plan

1. List the team's current strategic plans goals:

Five horizontal lines for listing strategic goals.

2. Within each strategic goal, use the table below to consider activities that may align with shared risk and protective factors or the intersection domains. **Complete one table for each goal within the strategic plan.**

Intersection Domains	Intra- and Interpersonal Shared Risk and Protective Factors	Community, Social, and Structural Shared Risk and Protective Factors
Data and Surveillance Evidence-Based Strategies Health Disparities Managed Resources Multilevel Leadership Networked Partnerships Workforce Capacity	Physical abuse Sexual abuse Emotional abuse Parental separation or divorce Emotional neglect Physical neglect Physical or intellectual disability Family history of trauma Familial support Educational attainment Access to basic needs Resiliency Self-efficacy Spirituality Violence in the household Substance misuse in household Mental illness in household Parental incarceration	Financial challenges (e.g., unemployment) Housing instability Food insecurity Providing social support Providing extracurricular activities Reducing the stigma associated with help-seeking behaviors Enhancing health equity and addressing disparities Teaching life skills (e.g., effective coping strategies and problem-solving skills) Access to quality medical care and mental health services Availability of lethal means (e.g., firearms or medications)

Strategic Plan Crosswalk to Suicide, Overdose, and ACEs Intersection Domains

Activities	Related to Shared Risk and Protective Factor(s)	Related to Intersection Domain(s)	Key Performance Indicators	Person/Team Responsible	Partner(s) Involved

Shared Planning and Strategic Plans

Strategic Plan Crosswalk to Suicide, Overdose, and ACEs Intersection Domains

3. What activities seem most relevant to addressing the intersection of suicide, overdose, and ACEs?

4. What does the person/team responsible for these activities know about the LHD's interest in addressing the intersection?

2. What will be your next step to use the information gathered?

- If the activity has begun, what changes or additions would you suggest? Who could you talk to about that?
- If the activity has not yet begun, what ideas do you have as to how it could also address the intersection? How can you become involved?
- Is it possible to involve the person/team responsible for the activity into your shared vision or strategic planning process? If so, how?
